SLOVAKIA

Study on financial services provision and prevention of financial exclusion

COUNTRY REPORT STAGE I: QUESTIONNAIRE
Please, answer directly in the questionnaire

PRELIMINARY QUESTIONS

Q.1. Existence of financial exclusion problem, public debate and data

Q.1.1.1.: Is there a problem of financial exclusion in your country (in broad terms, for details see Q.2.)?

To answer to this question, please refer to point 1 of the overview paper (OP) concepts and definitions

No ☐
Yes ☒

Q.1.1.2.: If yes, please describe below whether this arises because financial services providers do not meet the needs of certain groups of people or whether there are some groups of people who choose not to use financial services (eg: because they think they would be inappropriate to their needs or they would be refused access):

There are also people in Slovakia that can economically afford using financial, particularly banking services, but do not use them. The most common reasons are a conservative approach, mistrust of financial institutions, mistrust of electronic devices, etc. Some of them, especially the older generation, prefer the standard form of cheque books.

Q.1.2.: Is there currently a public debate on financial exclusion in your country?

Yes ☐
No ☒

Debate limited to specific issues or involving only few parts ☐

Q.1.2.1.: If yes, please give brief details of what this covers:

Q.1.2.2.: If yes, who are the players involved in that debate in your country?

National government ☐
Regional government ☒
Q.1.3.: What are the sources of data available related to the levels of financial exclusion (or to financial inclusion) in your country?

*Please, send an electronic or paper version of all relevant data/report(s) to RFA if not yet listed in the bibliography available on finincl.eu*

Q.1.3.1.: Sources of data available related to overall levels of financial exclusion:

Official European data ✓ details on periodicity:
- Eurostat yearbook 2006-07,
- Eurobarometer special edition-public opinion in Europe on Financial Services 2005,
- EBC – EU banking structures and EU banking sector stability 2005,
- World Retail Banking Report 2005, 2006,

Official national data ✓ details on periodicity:
- Focus. 2005,
- Štatistická ročenka SR 2005, 2006

Official regional data details on periodicity:

Academic reports details on periodicity:

Financial sector reports ✓ details on periodicity:
- Slovenska bankova asociacia 2006,

Non governmental organization reports details on periodicity:

Others (describe):

Specify how the exclusion is measured/estimated:

Q.1.3.2.: Sources of data available related to levels of banking (i.e. transactions) exclusion:

Official European data ✓ details on periodicity:
- Eurostat yearbook 2006-07,
- Eurobarometer special edition-public opinion in Europe on Financial Services 2005,
- EBC – EU banking structures and EU banking sector stability 2005,
- World Retail Banking Report 2005, 2006,

Official national data ✓ details on periodicity:
- Focus. 2005,
- Štatistická ročenka SR 2005, 2006

Official regional data details on periodicity:

Academic reports details on periodicity:

Financial sector reports ✓ details on periodicity:
- Slovenska bankova asociacia 2006,
SLOVAKIA

Q.1.3.3.: Sources of data available related to levels of credit exclusion:

Official European data ☒ details on periodicity:
Eurostat yearbook 2006-07,
Eurobarometer special edition-public opinion in Europe on Financial Services 2005,
EBC – EU banking structures and EU banking sector stability 2005,
World Retail Banking Report 2005, 2006,

Official national data ☐ details on periodicity:

Official regional data ☐ details on periodicity:

Academic reports ☐ details on periodicity:

Financial sector reports ☒ details on periodicity:
Slovenska bankova asociacia 2006,
Annual Report NBS 2006
Financial Stability Report 2006
Monetary Survey monthly bulletin

Non governmental organization reports ☐ details on periodicity:

Others (describe) :

Specify how the exclusion is measured/estimated:

Q.1.3.4.: Sources of data available related to levels of savings exclusion:

Official European data ☐ details on periodicity:

Official national data ☐ details on periodicity:

Official regional data ☐ details on periodicity:

Academic reports ☐ details on periodicity:

Financial sector reports ☒ details on periodicity:
Annual Report NBS 2006
Financial Stability Report 2006
Monetary Survey monthly bulletin

Non governmental organization reports ☐ details on periodicity:

Others (describe) :

Specify how the exclusion is measured/estimated:

Q.1.3.5.: Sources of data/statistics available related to use of financial services other than mentioned above:

Specified
Q.2. Banking transactions

Q.2.1.: Is there a problem of financial exclusion regarding transaction banking services in your country?

Refer to point 1.1.1. of OP

yes ✗
no

Q.2.1.1.: Is the distinction between unbanked/marginally banked people relevant to your country?

(Unbanked people are the people with no banking relationships at all
Marginally banked people are people with a deposit account that has no electronic payment facilities, no payment card or cheque book and no means of remitting money, OR people who do have these facilities but make little or no use of them.)

Yes ✗
no

If that distinction is not relevant in your country, explain:
In our WP Slovakia will not deal with unbanked people, who refuse of banking services. From the financial assurance point of view we can distinguish between two huge groups:
1. a) the group covering the people with the regular incomes (wages), or pensions
   - low income aggregate families,
   - pensioners,
   - people seriously disabled
   - persons unemployed in a long-term
2) inhabitants with the irregular incomes, or with no incomes, used to be called as
“people with a multiple exclusion”, specifically the following people:
- marginal Roma ethnic communities,¹
- homeless people,
- so called “problematic people – after the serving one’s sentence,
- drugs addicted.

Q.2.1.2.: Are they people in your country that are

<table>
<thead>
<tr>
<th>Service</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unbanked</td>

<td></td>
</tr>
</tbody>
</table>

Q.2.2.: Where do people go to access to those services if they are refused by/ have difficulties accessing/choose not to use mainstream providers?

**Mainstream providers** are all institutions legally recognized as banks: savings banks

¹ It is a specific problem of some countries, especially of Slovakia, Hungary and Romania.
SLOVAKIA

and postal banks and public owned banks may, in that respect, be considered as mainstream providers

Describe briefly:

- The kind of alternative providers existing in your country (not for profit and/or commercial providers) and (if possible) some indications of the number of customers and/or number of service outlets they have
- The kind of services they provide (cheque cashing, bill-payment, remittances services…)
- How their costs and terms and conditions differ from those in mainstream market commercial banks

Please give full details of data source(s) for our bibliography and briefly describe the findings:
There are two types of financial institutions in Slovakia:
- A. Profitable financial institutions:
  1. Licensed - licences to these are awarded and their activities controlled by National Bank of Slovakia (banks, insurance companies, management companies, traders in commodities)
  2. Unlicensed - ltd.(limited) guarantee companies or commercial companies - are not under the jurisdiction of the NBS. They publish only minimum data regarding their activities.
Non-profitable financial institutions do not exist in Slovakia.
- B. Licensed institutions provide all services standard for other market economies, including the most recent products.
Unlicensed institutions, according to the legislature, are not allowed to accept deposits. They offer only loans with high interest rates and depository rights, largely for real estate. They concentrate on clients that have, for various reasons, no access to loans from licenced institutions.
C. Client's cost expenses and conditions offered by unlicensed institutions are extremely unfavourable. Loans are provided with high interest rate of 27%-260% p.a., as opposed to interest rates of 4%-20% p.a. offered by licensed institutions.

Q.2.3. How important is the role of savings banks and/or postal banks in meeting the needs of people to access to those services?

Describe briefly:

- The savings banks/postal banks/public owned banks existing in your country
- The kind of services they provide (cheque cashing, bill-payment, remittances services…) and (if possible) some indications of the number of customers and/or number of service outlets they have
- How their costs and terms and conditions differ from the rest of the mainstream market commercial banks
**SLOVAKIA**

Please give full details of data source(s) for our bibliography and briefly describe the findings:
Specialistic savings banks, postal banks and public owend banks there are not in the Slovak Republic.

### Q.3. Credit

**Q.3.1.1.:** Is there a problem of some people not having access to credit/choosing not to use credit in the prime credit market in your country?

*Prime credit market:* low cost credit with good terms and conditions available to people with medium and high incomes

- Refer to point 1.1.3. of OP

- Yes □
- No ☒

If yes, what are the main barriers:

**Q.3.1.2.:** Is there a problem of some people choosing deliberately to subscribe a credit in the sub-prime credit market in your country?

*Sub-prime credit market:* credit with high risk, high interests and poor conditions

- Refer to point 1.1.3. of OP

- Yes □
- No ☒

If yes, what are the reasons for them to do so?

Please give full details of data source(s) for our bibliography and briefly describe the findings:

**Q.3.2.:** Where do people go to access to credit if they are refused by or choose not to use the prime credit market?

Describe briefly:

- The kind of alternative credit providers existing in your country (not for profit and/or commercial organizations, sub-prime lenders, ...) and (if possible) some indications of the number of customers and/or number of service outlets they have
- The services they provide
Q.3.3.: As far as you are aware of, is there a problem of illegal lending in your country?

Yes □
No □
Limited to specific cases/areas □

If yes, please describe what you known about illegal lending and give full details of data source(s) for our bibliography (if existing).

This problem concerns mostly marginal gypsy communities with high unemployment rate and low educational standards, members of which live on government social support. There is ongoing research of the gypsy issues, primarily the social aspects of it, and several articles have been published in daily papers warning about the problem of usury. Unfortunately no statistic data regarding usury are available, since enquiry in this area would not give reliable data. There were a few criminal cases in Slovakia concerning usury within gypsy communities.

Poverty in Slovak Society and Attitudes of Slovak Society towards Poverty. Collected papers from the conference UNESCO BRIDGE, Bratislava 2006

Q.3.4.: Is there a usury rate ceiling in your country?

Yes □
No □

Q.3.4.1.: If yes, please give details of the product(s) concerned, and the ceiling that applies to it/them?
Concrete data haven't been published. It was stated in daily papers (SME, 2.3.2004) that a loaf of bread priced at 20.00 Sk would sell for 300.00 Sk if bought on deferred principal payment.

Q.3.4.2.: Is there a concern of rate ceiling as a cause of credit exclusion in your country or other criticism?

Yes □
No □

Specify:

At the beginning of 2007, there was a discussion about a possibility of establishing the top interest rate (5-6 times the base interest rate of the National Bank of Slovakia) for unlicensed institutions that offer loans to non-banking clients. These recommendations were not implemented in legislative changes.
Q.3.5.: Credit referencing and files registering (regarding the dishonoured cheques or other payment instruments) in your country

Q.3.5.1. Is there a positive credit database (listing all outstanding credits) implemented

- At national level? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- At banking sector level? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- Individually within each credit provider? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- At another level (explain):

Q.3.5.2.: Is there a negative credit database (listing details of bankruptcies/court judgments which are normally publicly available information as well as details of all credit commitments that are in default) implemented

- At national level? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- At banking sector level? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- Individually within each credit provider? Yes ☒ no ☐
  - If yes, is it Publicly run ☐ or privately run ☒
  - Voluntary ☐ or mandatory ☒

- At another level (explain):

Q.3.5.3.: Are there rules limiting the time span of the negative database memory in order to avoid the risk of lifelong exclusion?

- Yes ☐
- No ☒
- Specify:
Q. 3.5.4.: Are positive and negative information contained in the same database(s)?

Yes ☒
No ☐

Q. 3.5.5.: Do the mentioned registers/files cover all the financial institutions and all the credit transactions or are they limited to some categories? - Specify:

All licensed institutions register all loan transactions. According to Bank Act/Law, there is a central register of loans, where it is possible to check the amount of loans for individual clients and their fulfilment of contracts.

Q.3.6.1.: How is responsible lending ensured in your country?

It is ensured by a law  yes ☒ no ☐
It is ensured by a code of conduct within the banking sector  yes ☒ no ☐
It is implemented individually within some prime credit lenders  yes ☒ no ☐
It is implemented individually within some alternative credit providers  yes ☒ no ☐
It is not at all organized in my country  yes ☐ no ☐

Specify:

Loans provided by licensed institutions in Slovakia are secured according to Bank Act (2006 update). Legislature is based on rules by BASELL II and directions of EU CAD. Unlicensed institutions arrange the rules of securing their loans individually. Unfulfilled commitments of a client towards the unlicensed institution are passed onto an outsourcing company that exacts the payment under very hard conditions.

Q.3.6.2.: Describe briefly the principles of the existing measures regarding responsible lending

There are two kinds of principles of responsible loan granting that commercial banks use:
- standard - used by all banks, e.g. client scoring, where the bonity of client is researched;
- specific - to each particular bank according to their know how, and these are not published.

Q.3.6.3.: Are the above mentioned registers/file part of a responsible lending strategy or do they meet mostly other needs? - Specify:

Some banks require additional forms of securing their loans, e.g. securing the loan by a third person, by property, by life insurance contracts, or by securities (shares, bonds, stocks, debentures).

Q.4. Savings

Q.4.1.: Is there a problem of some people not being able to open/choosing not to open a savings account with a bank or similar provider in your country?
SLOVAKIA

Refer to point 1.1.2. of OP

yes ☐
no ☒

If yes, what are the **main barriers**: [Blank]

Q.4.2.: Is there a problem of some people choosing not to make their savings deposits in a bank or similar provider in your country?

Refer to point 1.1.2. of OP

yes ☐
no ☒

If yes, what are the **main reasons**: [Blank]

Q.4.3.: Where do people go to make savings deposits when they unable to or choose not to open a savings account with a bank or similar provider?

- Describe briefly the kind of alternative savings providers (non profit or commercial organization, informal savings groups) existing in your country and the services they provide.

- Describe briefly the other ways people use to make savings when they don’t save through a formal or informal provider

In Slovakia, any person/client is allowed to open a regular deposit account without any restrictions.

Please give full details of data source(s) for our bibliography

SOCIAL EXCLUSION AND POVERTY

Q.5. people exposed to social exclusion

For this section, please refer to **EU-SILC** (European Union – Statistics on Income and Living Conditions) results regarding your country for **year 2005**

Q.5.1.: What percentage of the population is at risk of poverty (below 60% of the national median income) in your country?

21 % of the population is at risk of poverty
Q.5.2.1.: What is the risk of poverty rate by age in your country? (% below at risk of poverty threshold-ARPT)

<table>
<thead>
<tr>
<th>Age</th>
<th>% below ARPT</th>
</tr>
</thead>
<tbody>
<tr>
<td>16-24</td>
<td>16.8</td>
</tr>
<tr>
<td>24-49</td>
<td>14.1</td>
</tr>
<tr>
<td>50-64</td>
<td>8.3</td>
</tr>
<tr>
<td>65+</td>
<td>7.1</td>
</tr>
</tbody>
</table>

Q.5.2.2.: What is the risk of poverty rate by gender in your country?

<table>
<thead>
<tr>
<th>Gender</th>
<th>% below ARPT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Females</td>
<td>13.5</td>
</tr>
<tr>
<td>Males</td>
<td>13.2</td>
</tr>
</tbody>
</table>

Q.5.2.3.: What is the risk of poverty rate by most frequent economic activity?

<table>
<thead>
<tr>
<th>Economic Activity</th>
<th>% below ARPT</th>
</tr>
</thead>
<tbody>
<tr>
<td>At work</td>
<td>8.9</td>
</tr>
<tr>
<td>Unemployed</td>
<td>39.2</td>
</tr>
<tr>
<td>Total inactive</td>
<td>19.4</td>
</tr>
</tbody>
</table>

Q.6. Links between financial exclusion and over indebtedness

Do read and refer to point 4.3. of O.P.

Q.6.1.: Have any research/studies carried out in your country explored the relationships between over-indebtedness and financial exclusion?

No ☒
Yes ☐

Q.6.2.: If yes, please give full details of the data source for our bibliography, briefly describe the findings and compare it to statements made in point 4.3. of the O.P.

Q.7. Links between financial exclusion and social exclusion

Do read and refer to point 4.2. of O.P.

Q.7.1.: Have any research/studies carried out in your country explored the causal link between financial exclusion and the broader phenomenon of social exclusion?

No ☒
Yes ☐

Q.7.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in point 4.2. of the O.P. (are the conclusion similar, different,…)

Page 12
### FINANCIAL EXCLUSION (F.E.)

<table>
<thead>
<tr>
<th>Q.8. Levels of financial exclusion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Do read and refer to point 2 of O.P.</td>
</tr>
</tbody>
</table>

#### Q.8.1.1.: Are there any national survey(s) data regarding the extent and causes of transaction banking exclusion in your country?

- No ☒
- Yes ☐

#### Q.8.1.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings (extent, who is affected, causes and consequences) and compare them to statements made in the Euro barometer data analysis for your country ([Table 2 levels of financial exclusion in individual EU 15 Countries in O.P. new tables about EU 27 coming soon](#)).

For Ireland, Spain and UK please comment points 2.2.1., 2.2.2., 2.2.3. or 2.2.4. of O.P. regarding national surveys and name and describe other existing surveys.

#### Q.8.2.1.: Are there any national survey(s) data regarding the extent and causes of credit exclusion in your country?

- No ☒
- Yes ☐

#### Q.8.2.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings (extent, who is affected, causes and consequences) and compare them to statements made in the Euro barometer data analysis for your country ([Table 2 levels of financial exclusion in individual EU 15 Countries in O.P. new tables about EU 27 coming soon](#)).

#### Q.8.3.1.: Are there any national survey(s) regarding the extent and causes of people who lack savings and/or cannot open a savings account with a bank or a similar organization in your country?

- No ☒
- Yes ☐

#### Q.8.3.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings (extent, who is affected, causes and consequences) and compare them to statements made in the Euro barometer data analysis for your country ([Table 2 levels of financial exclusion in individual EU 15 Countries in O.P. new tables about EU 27 coming soon](#)).

#### Q.8.4.1.: Do you have any other specific comments regarding the Eurobarometer data analysis for your country ([Table 2 levels of financial exclusion in individual EU 15](#))?
Q.8.4.2.: If yes, what are your comments?

There is no information on the EUROBAROMETER SLOVAKIA Internet page.

Q.9. People most likely to be financially excluded

Do read and refer to point 3 of O.P.

Q.9.1.1.: Is there any research describing the types of people most likely to be financially excluded (overall financial exclusion) in your country?

No ☐

Yes ☑

Q.9.1.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Eurobarometer data analysis? (Table 3 in O.P “Types of people likely to be financially excluded in the EU 15 new tables about EU 27 coming soon”)

Q.9.2.1.: Is there any research describing the types of people most likely to be excluded from banking transactions in your country?

No ☐

Yes ☑

Q.9.2.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Eurobarometer data analysis? (Table 3 in O.P “Types of people likely to be financially excluded in the EU 15 new tables about EU 27 coming soon”)

Q.9.3.1.: Is there any research describing the types of people most likely to be excluded from credit in your country?

No ☐

Yes ☑

Q.9.3.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Eurobarometer data analysis? (Table 3 in O.P “Types of people likely to be financially excluded in the EU 15 new tables about EU 27 coming soon”)

Page 14
SLOVAKIA

Q.9.4.1.: Is there any research describing the types of people most likely to be excluded from credit in your country?

No ☒
Yes ☐

Q.9.4.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Euro barometer data analysis? (Table 3 in O.P “Types of people likely to be financially excluded in the EU 15 new tables about EU 27 coming soon”)

CAUSES AND CONSEQUENCES OF FINANCIAL EXCLUSION

Please, read and refer to point 4 of O.P.

Q.10. Factors affecting difficulty of access or use of financial services in your country

Q.10.1.: Comment on all factors affecting difficulty of access or use in your country

Use table 6 of O.P.: Factors affecting difficulty of access or use. (ANNEX 1)
Add in that document other causes of exclusion that exist in your country and comment ALL causes relevant to your country.

Main reasons for financial exclusions in Slovakia are as follows:
- high rate of unemployment
- low income rate (low ratio GNP(Gross National Product)/person)
- low rate of social security
- aggressive market approach by banks
- micro-loans not procurable
- there are no providers of non-profit financial services, or, respectively, with lower orientation towards profits.

Q.10.2.: Give full details of the data source for our bibliography, briefly describe the findings and compare it to statements made in point 4 of the O.P.

Q.11. Causes and consequences of financial exclusion

Q.11.1.1.: Do you have any comments regarding the specific causes and consequences of financial exclusion related to your country?

To answer refer and compare with the contend of point 4 of O.P

No ☒
Yes ☐
**SLOVAKIA**

Q.11.1.2.: If yes, describe briefly what are those comments?

Q.11.2.1.: Do you have any data sources regarding the specific causes and consequences of financial exclusion related to your country?

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>No</td>
<td>☒</td>
</tr>
<tr>
<td>Yes</td>
<td></td>
</tr>
</tbody>
</table>

Q.11.2.2.: If yes, please give full details of the data source for our bibliography, briefly describe the findings and compare it to statements made in point 4 of the O.P.

**MARKET RESPONSE FOR FINANCIAL INCLUSION**

*Please look at the annex II of the overview paper table called “a synthesis of the main experiences of responses”.*

1. Check in the document if your country is already mentioned in the table

- If it is, copy-paste all the paragraphs related to your country in **ANNEX 2 (enclosed to this questionnaire)**, check whether the information about your country is adequate, comment, and add ALL missing information

- If not, fill in **ANNEX 2 (enclosed to this questionnaire)** with all relevant information and comments

2. Add full details of data source(s) for our bibliography under Q 12, Q13, Q14.

**Q.12. Provision of services by alternative providers**

**Q.13. Development of new products and services by mainstream providers**

**Q.14. Voluntary Charters and codes of practices**

**GOVERNMENT RESPONSE FOR FINANCIAL INCLUSION**

*Please look at the annex II of the overview paper table called “a synthesis of the main experiences of responses”.*

1. Check in the document if your country is already mentioned in the table

- If it is, copy-paste all the paragraphs related to your country in **ANNEX 2 (enclosed to this questionnaire)**, check whether the information about your country is adequate, comment and add ALL missing information
If not, fill in ANNEX 2 (enclosed to this questionnaire) with all relevant information and comments

2. Add full details of data source(s) for our bibliography below under Q. 15., Q.16., Q.17.

Q.15. Policy measures

Q.16. Government as a facilitator

Q.17. Government as a legislator

Q.18. Please use a separate sheet of paper to tell us anything else you think should be included in our report about the topic of financial exclusion in your country

Thank you very much for your help. It is much appreciated.
## ANNEX 1 - Q.10.1: FACTORS AFFECTING DIFFICULTY OF ACCESS OR USE IN YOUR COUNTRY

Add in this document other causes of exclusion that exist in your country and comment ALL causes relevant to your country.

<table>
<thead>
<tr>
<th>Societal factors</th>
<th>Access or use</th>
<th>The possible relationship*</th>
<th>Type of service affected**</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liberalisation of markets</td>
<td>Access</td>
<td>(+) increased competition may result in more attention been paid to all market segments or (-) levelling the regulation of different banking/financial institutions generally resulted in the disappearance of types of financial institutions which traditionally served people on low incomes</td>
<td>Banking**, Credit; Savings</td>
</tr>
<tr>
<td>Labour market changes</td>
<td>Access</td>
<td>(-) more flexible markets mean less stable incomes and, often, less creditworthiness</td>
<td>Banking; Credit</td>
</tr>
<tr>
<td>Money laundering rules/Identity checks</td>
<td>Access; Use</td>
<td>(-) preventing the use of the financial system for money laundering and financing of terrorism brings a greater bureaucracy to financial transactions</td>
<td>Banking; Savings</td>
</tr>
<tr>
<td>Fiscal policy</td>
<td>Access; Use</td>
<td>(+) duties and taxes on banking services may represent a heavy burden for people on low incomes people, reducing the convenience of using the services, (-) but fiscal measures can provide incentives (reducing cost or granting fiscal advantages) for financial inclusion</td>
<td>Banking; Savings, Credit</td>
</tr>
<tr>
<td>Social assistance</td>
<td>Access; Use</td>
<td>(-) paying social assistance in cash can deter people from opening a bank account (+) but antipoverty policies can facilitate financial inclusion</td>
<td>Banking; Credit, Savings</td>
</tr>
<tr>
<td>Demographic changes</td>
<td>Access; Use</td>
<td>(-) older people generally suffer more from the technological divide (+) young people have a higher propensity to use credit, but (-) their risk of over-indebtedness is higher and may lead to exclusion.</td>
<td>Banking; Credit</td>
</tr>
<tr>
<td>Income inequalities</td>
<td>Access</td>
<td>(-) higher income inequalities and literacy disparity are normally associated with greater difficulties of access</td>
<td>Banking, Credit</td>
</tr>
</tbody>
</table>
